Paso Robles, CA 93446

## **Assumption of the Risk, Participant Statement Relating to COVID-19 (CORONAVIRUS)**

Your safety and the safety of all our members, volunteers, and employees is Los Padres Council's top priority. While there is still much uncertainty regarding COVID 19, we are monitoring the information provided by health experts and government agencies to help keep safe those who choose to come to camp this summer.

First, staff and volunteers are coordinating with state and local health departments in San Luis Obispo and Santa Barbara Counties to ensure we are informed of and comply with their guidance to mitigate the risks COVID-19 being contracted at camp.

Our mitigation plan includes:

- Pre-attendance participant self-screening. If you become sick before or during camp; please do not attend camp and notify day camp director, Jeanne Gard at (805) 610-9674.
- Health screening upon your arrival at camp conducted by our camp health officers, which will also include a temperature check.
  - Note: should anyone not pass the arrival screening, the participant will not be allowed to enter camp.
- Limitations on visitors in camp.
  - All visitors will be screened upon arrival before entry to camp.
- There will be hygiene reminders while at camp.
- Extra handwashing /sanitizer stations throughout camp.
- Dedicated staff to clean and disinfect surfaces and shared program equipment.
- An emergency response plan that includes an isolation and quarantine protocol should a person at camp develop symptoms of COVID-19 or other communicable disease.
- Check-ins with each participant one week and two weeks after the camp to determine if any participants have developed symptoms.
- In accordance with BSA guidelines, there is to be no carpooling to and from camp
- **Masks will be mandatory. You will be called to pick up your Scout if they do not wear their mask properly.**

These precautions are important, but these efforts cannot eliminate the potential for exposure to COVID-19 or any other illness while at camp. Experts have said that people with COVID-19 may show no signs or symptoms of illness, but can still spread the virus, and people may be contagious before their symptoms occur. The fact is that someone with COVID-19 may pass the required health screenings and be allowed into camp.

We also know the very nature of camp makes social distancing difficult in many situations and impossible in others.

Information from the Centers for Disease Control and Prevention (CDC) states that older adults and people of any age who have serious underlying medical conditions are at higher risk for severe illness from COVID-19. *If you are in this group, please ensure you have approval from your health care provider prior to attending camp.*

Every staff member, volunteer, and Scouting family must evaluate their unique circumstances and make an informed decision before attending camp. We hope this information will be helpful as you make that choice.

\*Please note that changes in state and county guidance at camp could change and we reserve the right to adjust our procedures accordingly.
